

PRODUCT IDENTIFICATION

Description
SP-02-003 is a fluorinated compound with a trimethoxysilane function.

Reference	Designation	CAS Number
SP-02-003	Trifluoro-1-(trifluoromethyl)ethyl [3-(trimethoxysilyl)propyl]carbamate	Not identified

Storage at 5°C.

THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	Clear Liquid
Molecular Weight (g/mol)	373,32
Trimethoxysilane content	2,68 meq / g of product

Boiling Point (°C)	270 (±40)
Solubility in	Acetone, Chlorinated solvents, THF

NMR SPECTRA
