

PRODUCT IDENTIFICATION

Description
PEO Bis Phosphonic Acid is a polyethylene glycol with two phosphonic acid functions.

Reference	Designation	CAS Number
SP-1P-1-003	PEO Bis Phosphonic Acid	Not identified

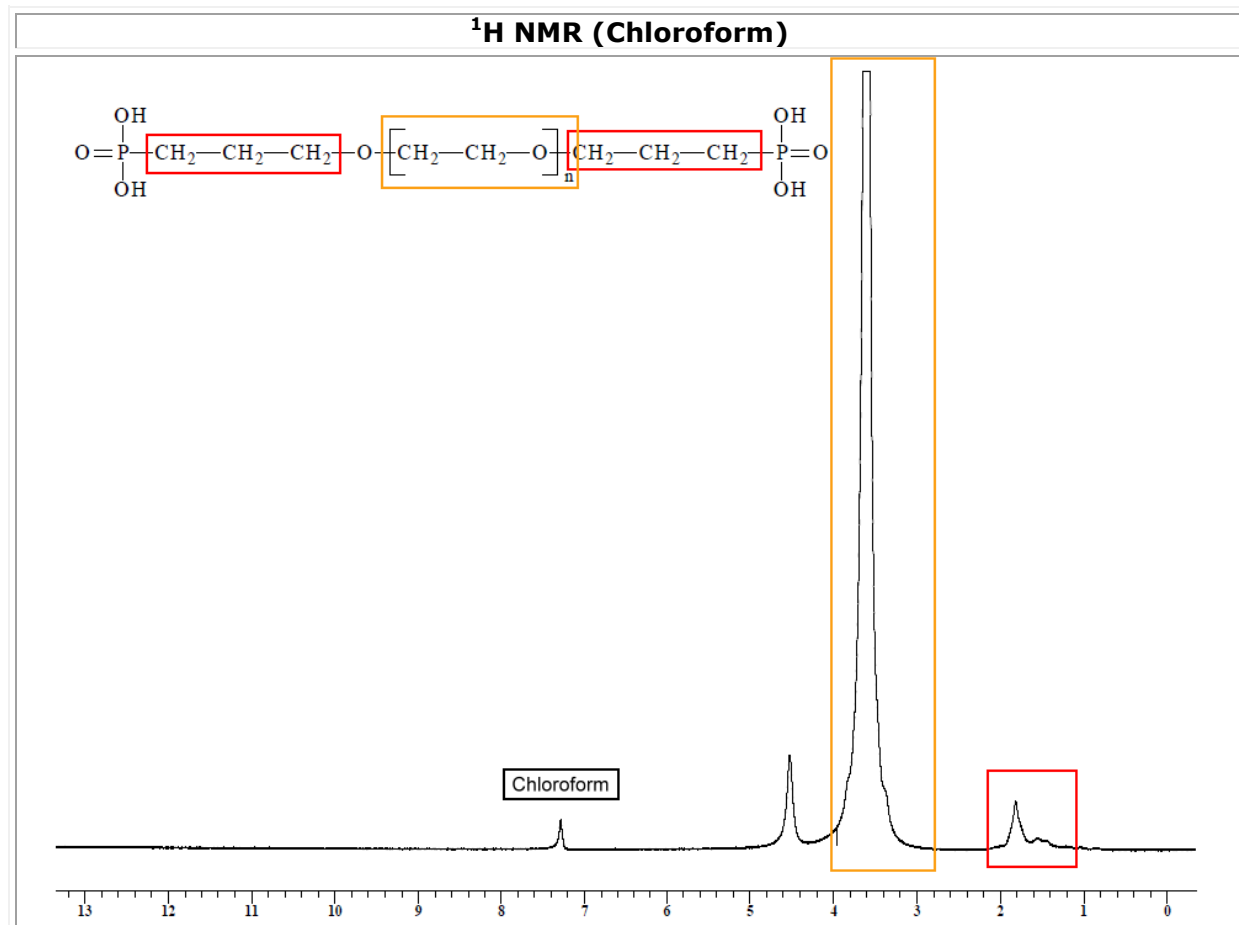

THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	White Powder
Molecular Weight (g/mol)	2250
Composition (wt %)	

Melting Point (°C)	50 - 60
Solvents	Water, THF, Chloroform, Acetone

NMR SPECTRA

³¹P NMR (Chloroform)
