

PRODUCT IDENTIFICATION

Description
PEO Triethoxysilane is a polyethylene glycol with a triethoxysilane function.

Reference	Designation	CAS Number
SP-1P-2-001	PEO Triethoxysilane	97969-60-3

THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	From viscous liquid to Wax Depends on molecular weight
Molecular Weight (g/mol)	On demand
Triethoxysilane content	Depends on n value

Solvents	Water - Chloroform
-----------------	--------------------

NMR SPECTRA
