

PRODUCT IDENTIFICATION

Description
PEO Bis Triethoxysilane is a polyethylene glycol with two triethoxysilane functions.

Reference	Designation	CAS Number
SP-1P-2-006	PEO Bis Triethoxysilane	666829-33-0

THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	From Clear Viscous Liquid to wax (depends on molecular weight)
Average Molecular Weight (g/mol)	On demand
Triethoxysilane content	Depends on n value

Solvents	Chloroform, THF, Toluene, Water
-----------------	---------------------------------

NMR SPECTRA
