

PRODUCT IDENTIFICATION

Storage at 4°C.

Description
Statistical methacrylic copolymer with triethoxysilane functions.

Reference	Designation	CAS Number
SP-4P-2-002	MMA-co-TRIETHOXYSILANE METHACRYLATE	75944-16-0

Following assays determined by ¹H NMR.

Triethoxysilane Content	Depends on x, y, n value
--------------------------------	--------------------------

PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	White Powder
Composition (¹ H NMR Determination)	Depends on x, y, n value

Molecular Weight Mn (g/mol) Eq. POLYSTYRENE	Depends on x, y, n value
Molecular Weight Mw (g/mol) Eq. POLYSTYRENE	Depends on x, y, n value
Polydispersity Index Ip	Depends on x, y, n value

Solubility in	Chlorinated solvents, GLYME, Ketones, THF
----------------------	---
