

PRODUCT IDENTIFICATION

Description
(Meth)acrylic copolymer with epoxy groups.

Reference	Designation	CAS Number
SP-4P-5-003	ABu-co-MAGLY	26660-36-6

Following assays determined by ¹H NMR.

Epoxy Content	2,060 meq / g of product
----------------------	--------------------------

PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	Viscous Clear Liquid
Composition	x=0,7 y=0,3
Molecular Weight Mn (g/mol) Eq. POLYSTYRENE	2 160
Molecular Weight Mw (g/mol) Eq. POLYSTYRENE	6 250
Polydispersity Index Ip	2,9

Epoxy content	4,9 functions per chain
----------------------	-------------------------

Solubility in	Chlorinated solvents, THF
----------------------	---------------------------

NMR SPECTRA
